

SFO to SJC

If you will be arriving at SFO rather than SJC, there are several shuttle options you can use to travel between the two airports.

The most direct is available through www.montereyairbus.com for a one-way cost of \$20.00 (USD) – however, their website notes that prices are subject to change without notice. Nevertheless, it seems to be the most reasonable and convenient way to get to and from SJC and SFO Reservations are highly recommended. You will find their stop outside the baggage claim area, or the customs area for international flights at stations labeled “Airporters”. At SJC their stops are labeled “Scheduled Buses”. Their web site is very clear and helpful, especially about pickup locations.

Another shuttle option, essentially a number of inter-airport taxis, is available for about \$45.00 - \$65.00 (USD). You should be able to find them easily once you arrive at the airport.

Less expensive but slightly more complicated public transit is available between the two airports (please see the separate TRANSPORTATION ALTERNATIVES .pdf for details.)

It will take about one hour for the shuttle bus to drive from SFO to SJC – probably closer to two hours for the public transit option. These are actual times en route. Please allow extra time to make connections.
